

A hand is shown turning a lever on a white rectangular water tap labeled "Zip". The tap is mounted on a wall. Below the tap, a stream of water is shown falling into a cup.

No more waiting for water to boil...

Zip gives boiling water instantly... Just turn on the tap!

Fully automatic

Just fit it and forget it. Zip does the rest – gives boiling water whenever you want it.

Steam free

Zip keeps the steam inside the heater, protects surrounding paintwork, walls and furnishings.

Individual cup or fast fill

Zip has the model for your needs – sizes to suit every office, factory, hospital, school, tea room and kitchen.
